## Principal Investigator Agreement to Repay Funds

This Agreement is entered into between Loma Linda Veterans Association for Research (hereafter "LLVARE") and \_\_\_\_\_ (hereafter "P.I.")

with regard to funds advanced by LLVARE in the initial/start-up stages of a research project.

P.I. recognizes that when a research project is at its initial/start-up stage, it is sometimes necessary to spend money before it is

The amount of money that I will require for start-up is \_\_\_\_\_

This start up money will be used in the following way: \_\_\_\_\_

I expect that I will be able to repay this loan in the following time period: \_\_\_\_\_

P. I. recognizes that, in the event that funds are expended or expenses are incurred by P.I. and the project does not actually receive appropriate approvals or become an actual active research project, including but not limited to sponsor's decision not to proceed with the project,

PI remains responsible for the repayment of these funds by \_\_\_\_\_

(no later than 9 months from the beginning of the study). The same result would occur if the project is approved and begins but funds from the sponsor are insufficient to repay the advance expenditures.

Therefore, in recognition that LLVARE may (but is not required to) allow the expenditure of funds prior to a research project actually being activated, P. I. hereby agrees to reimburse LLVARE for any and all expenses of any kind incurred should the following research project not become an active project with sponsor funding or should funding be insufficient to repay advance expenditures. Further, P.I. acknowledges that such advance(s) by LLVARE are totally within LLVARE's discretion and may be halted at any time by LLVARE.

### PI Information

Name of P.I. \_\_\_\_\_

Sponsor Name \_\_\_\_\_
